

Thanks for your interest in our Sublimated uniform program. If you are new to sublimation, you will love the durability, feel and look of the jerseys versus the traditional vinyl printing. We have samples in store for you to browse.

Once you design your jersey, you will download the pdf and email it to us (teamsales@h5sports.com) with your contact information. We will review your design and email or call you with any questions or suggestions. After we finalize the design, we will either create an online store with a link that you will send out to the team where they will order and pay for their jersey OR you can choose to pay the entire cost and order at once. You will receive an email explaining all the next steps once you send in the jersey design.

We have listed a simple set of instructions below to help you navigate the uniform builder. We recommend printing these steps and using them as a guide to create your one of a kind jersey. The designs are so customizable you can actually start in any sport category to find the template that you like and we will convert it to the jersey of your choice.

Our 3 most popular styles of football jerseys are the E-Flex \$46, Traditional: \$59, and Collegiate Stretch: \$77. We do have a package deal for home and away sets.

Here is the link for the online Uniform Builder from Champro for football. Remember, the price is the same no matter how many colors you choose in your printing, so have some fun with it.

Step by Step help

- Click on any one of the styles/cuts that you are looking for.
- Click on Customize. Do not worry about the fabric or production time.
- Choose the design template desired. You will change the colors on the next step.
- Starting in Location 1, Change colors by clicking on the "+" in the FILL bar. If you are looking for a traditional RED, please use SCARLET (not DK ORANGE). SCARLET looks dark on the screen, but it is the "normal" red. You can also use the LIGHTER or DARKER color pallet. Please note, colors on your screen may differ from the actual color. We have actual print swatches and sample jerseys in store if you want to see the exact color.
- To create an Ombre look, Click the Gradient bar or add a Pattern like Camo, Carbon Fiber or Glitch by clicking on the Pattern bar.
- Repeat the process with the other color locations to change the accent colors.
- At the top of the box, Click on Names/Numbers
- Click Team Name and ADD TEXT.
- Type in your team name. Adjust size to the standard 2" size. If you want/have a logo instead, you will do that in the next step.
- Click FONT & COLOR and choose a font using the drop down box. If you do not like any of the standard fonts, see below for a note about more font options.
- Change the text color using the boxes.

- Change Outline 1 to your desired color. You do NOT have to have any outlines, but we recommend using at least 1.
- Change Outline 2 to your desired color. If you do not want a second outline color, click the OFF radio button. The default color is set to black.
- Click Front number and Add Text. Most leagues require at least an 6" number on front.
- Add Player name on back if desired, but it is discouraged for teams younger than 6U for safety reasons. You must use one of the standard fonts.
- Click Back number and Add Text- Most leagues require at least an 8" number on back.
- Change font and colors as desired. You must use one of the standard fonts on the builder.
- Add sleeve Numbers if desired.
- At the top of the box, click Logo and Flags. They can be added anywhere on the jersey. You can select a stock logo or you can upload your own image. If you upload a logo, please try to find vector artwork (eps, svg or ai) and not jpg or png if possible. You will also need to attach the logo file to your design pdf when you send it back to us. We can also help bring your idea to life. Just let us know your idea(s) when you send in the jersey template.
- Click on Checkout/Roster. You will NOT be entering any player data at this point.
- Scroll to the bottom and in the "Notes Section" type your Team name and the Coach's LAST name, and phone number. If you are not the coach, list your contact info also if different from the Coach. Scroll down and click on Download. You do not have to enter quantities. It may take a few minutes (up to 5 minutes) for the pdf to download, but it will download.

\*\*When you send us the PDF (and logo if using), be sure to include the color of pants, if using, and/or socks that you would like the team to wear. These can be required or optional when we build your online store. Parents will have the opportunity to purchase a fan version of the jersey or they can purchase a solid color shirt with the team name.

Here is the email address: [teamsales@h5sports.com](mailto:teamsales@h5sports.com)

\*For Team Names, you can use any font you find on DaFont.com. It is the only font site that we trust. On the builder, use VARSITY as a placeholder and choose your colors. In the notes section of the checkout, let us know the exact font name you would like to use from Dafont.com

\*If you have a logo or a team name design that you have seen, send us the image and we can do our best to replicate it. If we can use our stock art, there is no art charge. If you want something specific and exact, we will quote you approximate art charges.
