

Uniform Design Instructions:

Remember, the price is the same no matter how many colors you choose in your printing, so have some fun with it. If there is anything you would like to do or see that isn't on the builder, please come to our store to work with one of our design experts. We can help create virtually any design or pattern.

- Choose the design template desired. You will change the colors on the next step.
- Starting in Location 1, Change colors by clicking on the grey FILL bar. **Please note, colors on your screen may differ from the actual color.** We have actual print swatches and sample jerseys in store. If you have time, we recommend stopping by our store to look at the colors. This can be done after you build your design. We can easily adjust colors at that time. You can also request any custom CMYK color.
- To create an ombre look, click the Gradient bar or to add a fill like Camo or Carbon Fiber, click the Pattern bar.
- Repeat the process with the other color locations. Location 2 and 3 are great places to add a pattern.
- At the top of the box, Click on **Names/Numbers**
- Under Team Name, click ADD TEXT. If you want a logo instead of a team name, you will add it at a later step.
- Type in your team name. We will adjust/center the placement if necessary. The text height and width will be adjusted and scaled to fit on the jersey according to our standard measurements and guidelines..
- Click on the grey "FONT & COLOR" bar to change the font and color. If you have a custom font that you would like to use, please contact the store to discuss the options. Use the Varsity font as a placeholder for your text.
- The default text has both a white and a black outline that are OPTIONAL.
- Click Outline to change or remove the first (white) outline color
- Click Outline 2 to change or remove the second (black) outline. Note: It may be hard to see the black outline if you have a dark colored jersey.
- Add a Front Number if desired. We do not recommend it for 6U and younger teams due to the limited space on a small jersey.
- Add a Player Name on back if desired. Last names are discouraged for teams younger than 6U for safety reasons. Consider using a nickname for younger teams. We will make name printing available on the coach and fan jerseys.
- Click Back Number and ADD TEXT- **Change the size to our standard 6" size.** The number may look small on the mock up, but it is the proper size on a youth jersey. We will adjust/center the number placement.
- Add sleeve numbers, text or logos if desired.
- Logos and Flags can be added anywhere on the jersey. You can select a stock image or you can upload your own image. If you upload a logo, it must be in vector format (eps, svg or ai). You will also need to email us the logo file. If you are unsure about vector artwork, we will review your file and let you know. If it is not in vector format and you want an exact image or logo, we can recreate it for a \$10-\$50 art fee depending on the complexity of the design. We have additional stock images available at no charge that are not on the builder. You can send us a screenshot or description of your idea. Please allow 24-48 hours for a proof. For the fastest service, it is best to use the stock images on the builder.
- Click Checkout/Roster. You do not need to enter any roster information if you are using an online store. Add any comments or requests in the Notes section.
- Click the Blue Share button under the image. You may need to register, but it is quick and easy. This also allows you to save your design(s).
- Please use the following format when you send us the design:
Design Name: Your Team Name AND Coach's LAST Name Ex: Dragons Smith
Your name: First and Last Name. Ex: Ben Smith
Your Phone Number: xxx-xxx-xxxx
Your Email: xxxx@xxx.com
Dealer's Email(s): TEAMSALES@H5SPORTS.COM - This is very important.
Notes: Any additional information or design idea/help requests.
